Positioned on the main road through Riche Terre is this icon of yesteryear when a large international textile factory formed part of the livelihoods of many local inhabitants. These premises are now being made available on a rental basis. The premises are certainly massive – 13,000sqm of floor area space on over 3arps on land. 5 large concrete buildings make up this expansive property. With some ingenuity these premises can be converted to satisfy a wide array of businesses – industrial, warehousing and retail amongst others.
